Richman's Clothes for Fall Set a New Standard of Value Giving

These new suit and topcoat models, created by a designing staff, second to none in experience and artistry, give you style that can't be improved upon at any price — the woolens are identical with many of the weaves you will see offered at extravagant prices, now available in Richman's Clothes only through our huge quantity cash buying power-the tailoring bears evidence of the unusual skill and care of workers whose efforts are not measured by a fixed weekly wage.

Richman's Clothes are all designed, cut, and tailored in our own great factories in Cleveland and Lorain, Ohio, by 2000 workers who own \$5,000,000 in Richman stock-they are sold direct to you, through our own stores, at one small margin of profit-and because of these unique advantages, you will save fully 50% of the price ordinarily asked for clothes of equally good style, materials and work-

Ordinary Oil

ORDINARY oil is coatly. Even when it operates your car with no outward sign of disaster-tiny particles of oil are scorching, burning, paper thin. films break and must be mended by a fresh film A part of the oil is entirely used up and has to be re placed. The remaining mixture soon becomes heatworn, Meless, and should be drained often

Only the best oils give long lived service, for only the best oils can withstand the ruthless attack of motor heat and grinding friction.

"Pure Pennsylvania" oils are famous for their re

sistance to heat and wear. Tiplene is "Pure Pennsy." vania" oil-and more. It is 100% Super Pennsylvanua motor oil. Tiolene is carefully refined from the famous amber-colored Cabin Creek crude -- a super grade of Pennsylvanus crude. The most approved to fining processes and expert skill combine to perfect in Tiolene, the natural goodness of this crude

Get a fill of Tiologe and you will fool the difference. for it oils smooth's, surely-always. You will find too, that it gives more miles of safe lubrication per fill That is why Tiolene is considered cheapest in the end
